

THE PROJECT

AltExch is a Platform that will bring cryptocurrencies and Blockchain assets to the masses through beautifully designed User interface and easy to understand trading technology. AltExch will empower traders and Investors with tools and resources that can increase their profit potential, performance and understandings.

AEX TOKEN

AltExch is introducing a functional token, AEX. With AEX Token People Can Buy and Sell their digital assets in AltExch, The more assets our Exchange platform has, the more profit will be made, which means More income returns to our token holders.

AltExch – A Single Interface for Crypto Trading

AltExch is a global exchange platform that allows users to trade any cryptocurrency through a single point of access from anywhere at any time. Here anyone can raise profits regardless if trading is their profession or a sudden new interest.

EXCHANGE FOR ANYONE

REFERRAL PROGRAM FOR ANYONE

Join AltExch referral program to earn up to 35% commission from their trading fees by introducing new users to our platform. All it takes is a link and a post. Simply sign up to receive your referral link to later post it on your site, social networks, or any other place on the web.

AltExch offers you to rely on the experience of a myriad of carefully selected and approved professional traders that have a proven record of profitable deals and apply their knowledge for your benefit, You can automatically copy their best trades and raise profits thorough AltExch Exchange Platform.

SIGNAL TRADING

MARGIN TRADING

Don't have enough money to trade? And you are sure about your market prediction? We have Solution for you, You can borrow money from AltExch and use them to buy or sell any cryptocurrency.

If you are a low skilled trader then AltExch Binary options are deceptively simple to understand, The most commonly traded instrument is a high-low or fixed-return option that provides access to crypto, These options have a clearly-stated expiration date, time and strike price.
